

# BASIC BEAR COSTUME

## The Basic Bear

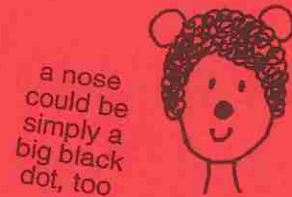

a bear nose can be a large painted-on triangle

start with a sweatshirt and sweatpants of one solid color

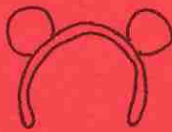

ears are the most critical costume element

a nose could be simply a big black dot, too

a headband with bear ears attached to it is the easiest quick costume element to create

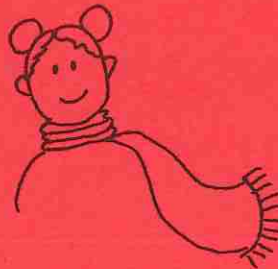

use usual bear colors, or mix it up with fantasy colors like blue or red

some bears could wear vests

some bears could wear scarves

a bow tie is a simple and effective costume element

a long stocking cap is very winter-like - add ears

some bears could wear hats - attach ears to it

pajamas and nightgowns would be very appropriate
